

PROJECT REFERENCE

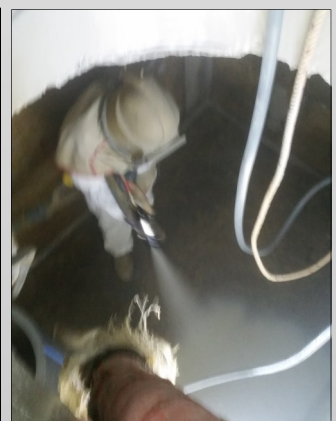

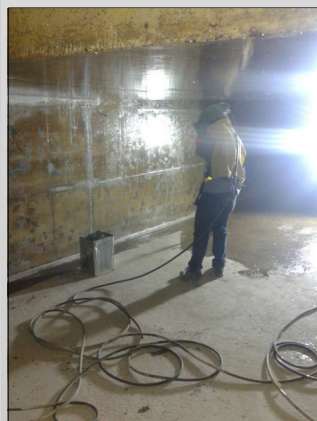

POLYUREA WATERPROOFING - THE NEW AUSTRALIAN EMBASSY, BANGKOK

Hammersmith were selected to carry out all waterproofing works at the New Australian Embassy and Head of Mission Accommodation in Bangkok by Main Contractor Bouygues - VSL Joint Venture, based on the Clients extremely high quality requirements, problems and issues arising with waterproofing on previous consular projects in the region and Hammersmith's well know reputation and track record.

The largest and most demanding section of the works was the application of some 7,000m² of Silcor 990 and 780 pure and hybrid hot sprayed, plural component polyurea to tanks, water features and ponds. These works were carried out under strict Australian Health and Safety Standards and included the implementation of full confined space working regulations requiring the use of fully trained and certified operatives.

All works were complete to the complete satisfaction of the Client, the Main Contractor and the Material supplier, Messrs. Grace Australia Pty., Ltd.
