

## SARNAFIL MECHANICALLY FIXED, WELDED PVC MEMBRANE - IMPACT CHALLENGER

The 80,000 square meter Impact Challenger re-roofing project carried out by Hammersmith in 2007 still remains the largest Sarnafil roof installation in South East Asia.

Hammersmith were selected to partner with Sika Thailand on this huge and unprecedented project due to their ability to manage the considerable logistical challenge and perform installation works to the highest possible standards.
